ANEES KHAN

MERN STACK DEVELOPER

+923085454180 • aneeskhan16202@gmail.com • Islamabad, Pakistan

Summary

Full-Stack Developer with a strong foundation in computer science and hands-on experience building scalable, production-ready web applications. Proficient in the MERN stack and modern TypeScript-based frameworks (NestJS), skilled at leveraging AI tools to accelerate development, improve code quality, and deliver efficient, user-focused solutions.

Skills

Full-Stack Development (MERN) • TypeScript & NestJS • PostgreSQL & MongoDB • REST API Design • Git & GitHub • AI-Assisted Development • Prompt Engineering

Experience

Full Stack Developer: **99 Technologies** *Feb 2026 – Present*

- Building and maintaining scalable web applications across frontend and backend.
- Designing RESTful APIs and developing responsive UIs using React and TypeScript.
- Integrating PostgreSQL and MongoDB for relational and non-relational data storage.
- Delivering production-ready features using NestJS with clean, maintainable code.
- **Tech Stack:** *React.js, Node.js, NestJS, TypeScript, PostgreSQL, MongoDB, Express.js*

Full Stack Developer Intern: **Code Alpha** *Nov 2025 – Dec 2025*

- Built a full-stack Job Portal enabling efficient job posting and application management.
- Built RESTful APIs with Node.js & Express; integrated MongoDB for data storage.
- Developed a responsive frontend using React.js and Material UI.
- **Tech Stack:** *React.js, Node.js, Express.js, MongoDB, Material UI*

Projects

Social Media Scheduler

- Post scheduler for Instagram, Facebook, and LinkedIn using direct free API integrations.
- BullMQ/Redis for scheduling, Supabase for auth & storage, OpenAI for AI caption generation.
- **Tech Stack:** *Node.js, BullMQ, Redis, Supabase, OpenAI API, Meta Graph API, LinkedIn API*

CRM

- Customer Relationship Management system for managing leads, contacts, and sales pipelines.
- Implemented role-based dashboards, activity tracking, and automated follow-up reminders.

ITAD Scrapper

- Web scraper for IT Asset Disposition data, automating collection of device pricing and inventory.
- Parsed and structured scraped data into a clean database for reporting and analysis.

Calculus Problem Solver

- Mobile app with Python Flask backend capturing calculus problems from images via OCR.
- Solved limits, integrals, and derivatives using SymPy; converted extracted text into structured math expressions.
- **Tech Stack:** *Flutter, Python (Flask), OCR, SymPy, PostgreSQL*

Education

Bachelor of Science in Computer Science *COMSATS University Islamabad, Abbottabad Campus*

Intermediate (FSc) *Quaid-e-Azam Group of Schools & Colleges, Swabi*

Matric *Quaid-e-Azam Group of Schools & Colleges, Swabi*
